

M-105 A2 1 1/2ton trailer

Prívěs je americkou armádou používán v mnoha konfiguracích a kamuflážích (celozelené, pískové, NATO třibarevná kamufláž, ...). Je nutné zvolit podobu přívěsu podle konkrétní předlohy. Přívěsy jsou tahány za různými nákladními automobily (M35, M50, M815, M923, ...) nebo za obrněnými transportéry (M113, M577, ...).
